

U.S. BORDER SECURITY COUNCIL

A special project of AHEAD

**Act now to stop
"New Columbia"**

**from being made the
nation's 51st state!**

Dear Fellow American,

Sanctuary cities for illegal aliens are bad enough...

...but now the "Open Borders" crowd wants to create an entire "sanctuary state" out of our nation's capital.

These crazies are right now furiously lobbying to turn our nation's capital -- Washington, D.C. -- into the nation's 51st state -- the "state" of "New Columbia!"

Of course, they want two additional liberal "Senators" in the U.S. Senate to vote for more benefits for illegal aliens, and to fight for amnesty.

However, their real goal is to turn our nation's capital into a giant "sanctuary state," where millions of illegal aliens can camp out and pressure our government for more and more benefits -- funded by YOU, the taxpayer!

D.C. Congressional Delegate Eleanor Holmes Norton, a close friend of President Obama, is working night and day to round up the votes in Congress to declare D.C. a state.

All she needs is a majority of the House and the Senate to vote for statehood, and for President Obama to sign the legislation, and D.C. becomes our newest state.

And by my count, she is very, very close to rounding up the votes she needs!

Please sign and return your enclosed "No Statehood for D.C.!" declaration. I want to collect thousands and thousands of these declarations, then deliver them to Capitol Hill. Our Representatives must be told: The American people will not stand for making the corrupt, sleazy, incompetent District of Columbia into America's fifty-first state.

And, along with your declaration please send in a contribution of \$15, \$20, \$25, \$30, \$50 or even \$100 to help me pay for this urgent campaign to stop D.C. statehood and prevent our nation's capital from

Over, please. . .
